- Simple, Table Status Monitor Screen
- Easy Adjustable Table Numbers and Names
- Private Table Creation

The screenshot displays a software interface for monitoring table status in a restaurant. At the top, there is a navigation bar with icons and labels for various functions: Tables, Sell, Product Management, Campaign Management, Inventory/Customer Management, Reports, Transactions, On Account, Log, and Settings. Below this is a filter bar with tabs for 'A La Carte', 'Dine in', 'Take Out', 'All', 'Take Away', and 'Delivery'. The main area shows five tables labeled 'Table-1' through 'Table-5', each represented by a square icon containing a table layout. A legend on the left side of the main area defines the status colors: Available (black), Occupied (green), New Order (red), Paid (blue), Reserved (yellow), and User (iskoen). A large, semi-transparent watermark with a stylized 'R' and the text 'ROX' is overlaid on the right side of the interface.
